MITCHELL & CO. 29 CAPEL STREET, DUBLIN

ASK EVERYBODY TO

SAVE WASTE PAPER

It is not only the patriotic duty but is in the individual interests of every man, woman, and child in the country to collect every available Scrap of Paper, so that the Irish Paper Mills may be kept running through this time of shortage of paper-making materials.

THE IRISH PAPER MILLS COMPANY guarantee that packs will be supplied and maximum prices fixed by the Government paid by their Contractors, Messrs. M. Duan and Co.

BANKS, PUBLIC OFFICES, and BUSINESS FIRMS having large stocks of old paper should get rid of it now, as the shortage of paper-making material is becoming very acute, and the problem is to keep Mills running.

THE IRISH PAPER MILLS COMPANY are in a position to guarantee the destruction and repulping of ALL grades of paper, and their contractors will, if necessary, in the case of private documents, prepare the waste paper on the seller's premises and have it taken direct to the Mills and destroyed under the eye of a representative of the seller.

The minimum quantity of waste paper which can be taken in any one consignment is one cwt. Carriage on smaller quantities would be prohibitive.

Send samples, and highest prices will be quoted per return, and cash remitted promptly on receipt of goods.

which a really sound state of health gives to a person is incalculable. In domestic, social and business life a condition of good health will bring to the happy possessor more benefits, directly and indirectly, than can easily be imagined. People are more pleasant to meet and deal with in every sphere of life when they are in possession of good health. Rarely indeed do you find such people "down in the dumps," frowning at Fate, depressed and thinking that everything is going wrong. Such feelings are usually foreign to the healthy and the strong. People who are anxious to be well cannot be too often reminded of the immense importance

care of that important part of the physical organization—the digestive system. For it happens so very frequently that things first go wrong there. And when once the digestion gets thoroughly out of order all sorts of troubles follow. One of the best methods known for keeping the digestion right, all the year round, is the judicious use of Beecham's Pills. This medicine is widely known and well recommended. People

A PICTURESQUE PROCESSION. A PICTURESQUE PROCESSION.

While the ceaseless rain of Saturday and the deluge of the previous night diminished in some degree the success of the Pageant of Women's Work held on Saturday in Lord Iveagh's grounds, a much more prominent factor to dwell upon was found in the stoutness of heart with which the promoters and organisers carried the enterprise through, and the devotion to the cause which prompted a large attendance of the public, undeterred by the unfortunate conditions. The grounds almost resembled a quagnire, and one could not but concede also the fullest admiration to the women who paraded THE "PEACE" NOTE. THE PEAUE NOTE.

The significance of the Austrian "Feace"

Note, says The Times, and of the subsidiary intrigues which are revealed to-day, is perfectly clear. Germany is hard pressed, and she desires to gain time for the reorganisation of the amies which Foch is driving back in France and for the construction of fresh lines of defence. She accordingly employs Austria-Hungary to renew sham proposals for peace negotiations. She offers a separate peace to comme and she could propose shat we and

The smking of the Gulway Castle, says The Tiesce, is a double reminder that talking peace does not change the enemy's nature, and that we are far from having mastered the menace of the submarine. Too often we speak of the Lucitania as though it were an isolated crime. It would be repeated every day of the week but for the vigilance of the Nevy; it was repeated lest Thursday with every circumstance of outrage, and that at a time when the offers of a stiam peace were awaiting their signature. It is characteristic of the enemy to make offers of peace and at the same time to underline them with insult and outrage.

Every place was full up with them. The Germans had seized all the copper in Belgium and all woollen material from beds for the manufacture of clothing. The women had a splendid reception is Holland.

GOOD WASHING CRETONNES AT HALF-PRICE

Half-price—less than cost price—is a price rarely met with nowadays. And this is the price Walpoles are asking for 12,000 yards of their Cretonnes—Cretonnes of charming designs—Cretonnes that will wash well.

But why this tremendous reduction one might naturally ask, and the reason is that these are designs of various lengths, of which fresh supplies cannot be bought. Hence this

Clearance Offer 1/62 & 1/11 per at at Cretonnes are made of Cotton - and cotton is getting scarcer and dearer

So much so, that very shortly Cretonnes will not be obtainable under 3/11 a yard. Therefore, to get Loose Covers now is to save a lot. For instance, suppose one wanted Loose Covers for 2 chairs and a Chesterfield, just imagine the difference between 30 yards at 1/62 and 30 yards at 3/11.

Walpoles' will be pleased to send cuttings, but they must ask ladies to say what colours are required, and to decide at once, as the designs will sell out almost immediately.
